

ASP

Wednesday, 27 February 2008

ASP. The ASP, or Assault System Pod, is a mobile artillery weapon used by Cobra. A towed vehicle, the ASP has room for one operator. It has an armament of two 76mm anti-tank cannons and has the ability to rotate 360 degrees and elevate to 90 degrees at high speeds. ASPs were widely used as defensive weapons at Cobra installations, including Cobra Island. A number of ASP's were later modified to become Python Patrol ASPs. (GI 36, 41, 49, 64, 74, 75, 88, 111, 115; OB 4; SM 2)
