

## Battle Copter

Wednesday, 27 February 2008

BATTLE COPTER. Small one-man miniature helicopters. The Battle Copters, used by both G.I. Joe and Cobra were essentially helicopter-backpacks armed with weapons. Cobra Commander gave Destro two Cobra Battle Copters when he freed the Baroness from imprisonment. The G.I. Joe Eco-Warriors used Battle Copters in their attack on the sea base of former Cobra operative, Cesspool. During a battle to protect a top secret weapons research lab in New York City's Chrysler Building, General Joe Colton -- the original G.I. Joe-- led a team of Joes flying Battle Copters.
