

Desert Fox

Thursday, 28 February 2008

DESERT FOX. A six-wheeled armored jeep used by the G.I. Joe team. Primarily driven by the Joe known as Skidmark, the Desert Fox was armed with two ground-to-air missiles and a 70mm anti-aircraft gun. The Desert Fox first saw action only hours after its arrival at the Pit, joining in the chase after Cobra's Star-Viper, who had infiltrated Joe headquarters and escaped. The Fox was part of many other missions for the team, including a long mission in the jungles of Sierra Gordo where the Joes and the October Guard fought Destro's Iron Grenadiers, and an advisory mission to Wolkekuckuckland.
