

Devilfish

Thursday, 28 February 2008

DEVILFISH. The G.I. Joe team's riverine warfare and patrol boat, the Devilfish is a small but heavily armed attack boat. The boat needs only a one man crew, and is armed with twin .50 caliber chain guns, four anti-armor Sea Phoenix missiles and two wire-guided MK 78 Captor torpedoes. The Devilfish was first used by the Joes when two of the vessels were used to rescue Snake-Eyes from Cobra Island.
