

Ghoststriker X-16

Thursday, 28 February 2008

GHOSTSTRIKER X-16. The Ghoststriker was a highly-advanced fighter jet used by the G.I. Joe team, based on the Navy's F-16 fighter. It could carry an armament of two Sidewinder missiles, four rapid fire Phoenix missiles and carried two anti-aircraft missile launchers. Its cockpit could carry a pilot and co-pilot. Primarily flown by Ace, the Ghoststriker was used in the last months before the Joe team was first shut down.
