

Jet Pack (Cobra)

Thursday, 28 February 2008

JET PACK (COBRA). A small jet-powered aircraft used by Cobra that was flown similarly to a hang glider. The jet pack was armed with four top-mounted "Quad blast" 25mm axial firing machine guns. It also carried two "Neutralizer" AIM-44 air-to-air missiles. The engagements the jet packs were involved in included Cobra's assault on Castle Destro in Scotland, and a battle in Sierra Gordo involving combined Cobra and Iron Grenadier forces.
